EDUCATION

Rutgers University, New Brunswick, NJ
Bachelor of Science in Data Science in Economics *Expected May 2027*

PROJECTS

Algorithmic Trading Bot *Ongoing*

- Built multiple trading bots using Python and machine learning to generate real-time buy/sell signals
- Designed and trained models on historical data using scikit-learn, XGBoost, and Optuna
- Deployed a live trading bot running via GitHub Actions, automating daily predictions and model updates
- Integrated APIs such as Polygon.io, yFinance, and Telegram for data, trade signals, and notifications

Loan Pricing PRD: Grade-Aware Income Adjustment *Completed*

- Wrote a PRD for grade-specific income pricing, with KPIs, guardrails and a fair-lending review
- Found that $40–60k earners in subprime grades E/F defaulted more than under-$40k earners
- Built a SQLite pipeline over 29.9M Lending Club records

PROFESSIONAL EXPERIENCE

True Markets, New York, NY *May 2026 - Present*
Product Management Intern

- Led the Rewards Program for retail traders, getting to design both a domestic and international reward system that would incentivize users to sign up, fund and trade on our platform
- Helped curate and maintain a growing email list to keep users (300 emails) updated on all of our products
- Part of a small group that front-runned the development of both our mobile app and website adding several features and pages that were sent to production

True Markets, New York, NY *May 2025 - August 2025*
Data Analyst Intern

- Conducted competitor market analysis across 20+ firms, creating insights that guided feature design decisions
- Built 5 internal presentation decks communicating growth and future goals to leadership and investors
- Developed automated data pipelines to improve data accuracy and streamline reporting workflows onto Slack

True Markets, New York, NY *December 2024 - August 2025*
Startup Intern

- Led the Rewards Program for retail traders, getting to design both a domestic and international reward system that would incentivize users to sign up, fund and trade on our platform
- Helped curate and maintain a growing email list to keep users (300 emails) updated on all of our products
- Part of a small group that front-runned the development of both our mobile app and website adding several features and pages that were sent to production

WORK EXPERIENCE

Gourmet Burger Restaurant, Sunnyvale, CA *August 2022 - August 2023*
Front-of-House Manager

- Coordinated cross-functional workflow between kitchen, servers, and front-of-house staff during peak hours, ensuring table turnover stayed under 8 minutes across a 80-seat restaurant
- Identified and implemented a process improvement to the table-reset checklist, reducing average reset time by 20% and receiving manager approval to train 3 new hires on the updated system
- Managed competing priorities in a fast-paced, deadline-driven environment, balancing real-time requests from servers, kitchen staff, and guests while maintaining service quality during managing hours

SKILLS

Coding: Python, R, C, C++, Git, ,Pandas, XGBoost, Scikit-learn, Data Analysis, Financial Modeling, API Integration
Applications: Tableau, Slack, Figma, Linear, Github, Apple Store Connect, AWS, Azure, Grafana
